Welcome To Vendor Laundry Service

About Us

shutterstock.com · 1208917900

The laundry process at WashEase begins by sorting the clothes. After sorting, similar clothes are washed together. The best detergent brands are used for washing clothes. The washing machine is then loaded by adjusting the right setting for your clothes. The freshwater rinse during the process helps in eliminating the dirt and stains from the clothes. We air-dry your clothes in anti-bacterial stainless-steel air-dryers that eliminate Direct UV rays from the sun which react with the colour pigments of your clothes and create bleaching effect.
